

AV/IT Services

Private Networks – Wired

If you require the ultimate in private network security with wired connections, St. Andrew's will provide your group with everything you need to have your group connected to your office network through a reliable, high speed secure network for your exclusive use.

This service includes:

- Pre-meeting review and consultation with our IT personnel
- Use of network hubs
- Wired connections to participant's laptop safely bundled and secured for safety considerations
- Back up equipment on site
- 1000 Mbps wired
- Stand-by DSL network in case of downtime from our primary carrier
- Complete testing prior to the meeting
- Support for individual participants to ensure successful connection to the network for 100% of the attendees
- On-site technical support throughout the meeting
- "Peace of Mind" AV/IT Package

The wired network package is priced at \$300 for the first day and \$150 for each additional day (max 5 days). There will be an additional setup charge of \$25 per laptop connected and configured to the network.
