

AV/IT Services

Webcasting

St. Andrew's is proud to offer a custom in-house developed webcasting solution to meet the growing demand of communicating with a wider audience through the convenience of the internet. There are many reasons clients are turning to webcasting, including:

- Critical mission broadcasting for urgent time-sensitive information
- Reduce or eliminate printing costs
- Reach a geographically dispersed audience
- Allow anytime on-demand access of recorded sessions
- Give access to people who cannot attend physically
- Show leading edge image
- Increase audience size and participation
- Reduce travel costs, save time

St. Andrew's would be pleased to be the producer of your webcast, providing through a single supplier all the necessary elements of a successful webcast. Our AV & IT staff will consult with you regarding your needs, make all the necessary arrangements for live viewers to participate, setup and test all audio visual equipment, produce a clear audio broadcast, archive the webcast and produce files for access by web link or optical media.
